Dr. Harman C. McAllister
Council for Tobacco Research USA Inc
900 Third Avenue
New York, NY 10022

Dear Dr. McAllister:

Recently I came across a letter sent by you to Dr. Rubinstein here at the University of Nebraska Medical Center describing your councils research activities. We are currently conducting basic research on the role of gonadotropin hormones and steroids in epithelial ovarian cancer. I would greatly appreciate if you could let me know whether this topic is of interest to your council. I have enclosed the abstract from my proposal to the NCI for your information.

Sincerely,

Dr. Jay Wimalasena
Assistant Professor
